

MAIN SHEET

A
Crews
Consulting Group
Partner

We streamline the process for entrepreneurs selling their businesses.

Focused on Main Street, not Wall Street.

Main Sheet provides top-quality advice to entrepreneurs ready to sell their companies. We offer small businesses an affordable alternative to working with investment banks—you get the same expert guidance without the lengthy process and exorbitant fees.

You've built a successful business, and now you want to capitalize on that success. Selling your company is a major milestone that means a lot to you. It means a lot to us, too.

Selling your business is a journey.

Main Sheet coordinates your sale process from start to finish. When you engage with us, we'll help you:

- **Find serious buyers** genuinely interested in your company
- **Set realistic expectations** for your outcome
- **Leverage our buy-side experience** to optimize your offer's appeal
- **Focus on the big picture** while we handle the details
- **Keep your cool** during what can be a surprisingly emotional journey

When you're an entrepreneur, your business is your baby. You may be ready to sell, but you want to ensure that the company keeps moving in the right direction. That means taking care of yourself, but it also means taking care of your team and the company's legacy.

Main Sheet doesn't engage with businesses for a quick sale and commission check. Main Sheet is deliberate, methodical, and committed to setting you and your company up for future success.

If you're considering selling your business, you need EOS® more than ever. EOS® gets your company operating at peak performance, increasing its value and making it attractive to potential buyers.

The Crews Consulting Group works closely with Main Sheet for any sale with a shared client. As part of your advisory team, CCG can help you articulate and communicate your needs, allowing Main Sheet to identify the right buyer for your organization.
